

Say No To Rust

Multipurpose Anti-Rust Lubricating Spray

SF - 40

Stops Squeaks

Drives Out Moisture

Cleans & Protects

Free Sticky Mechanism

**Useful In
Every Industry
And House**

Multipurpose Anti-Rust Lubricating Spray

SF - 40

SF - 40 is a multipurpose anti-rust lubricant with many functions like: Anti-rust, dehumidification, lubrication, cleaning & conductivity. It can efficiently maintain all kinds of mechanical equipment, precision instruments, and components, so that metal product can maintain a good working condition for a long time and prolong their service life. It has an excellent rust proof effects on metals, has a strong affinity with the metal surface, and has a strong permeability, which can effectively eliminate moisture and rust on metal surface and inside. It is non-sticky and can effectively lubricate metal parts. It can efficiently remove grease, dirt, stains, labels and other adhesive on surface of many objects.

DIRECTIONS:

Use the spray in well ventilated areas. Clean the surface before application. Hold the can upright during the use. Spray from a distance of 15-20cm. Wipe off excess oil, if necessary. Cleans surfaces from rust, grease, dirt, moisture, loosens sticky surfaces and hard water deposits.

APPLICATIONS:

- 1) Lubricates hinges, nuts/bolts, springs, costers, doors, windows, handles etc.
- 2) Protects from corrosion, does not damage most points.
- 3) Drives out moisture from metal surface, car decos, spark plugs, battery terminals etc.
