

Spray & Seal Waterproof Coating

Multi-purpose usages

- Anti-Corrosion
- Anti-Rust
- Waterproof
- Fast Apply

Wide Range of Applications

- Roof Leak
- Tile Leakages
- Pipe Leakage
- Joints Leak
And Many More..

Now No More Leakages

Spray & Seal Waterproof Coating

Silfix Spray & Seal Waterproof Coating is specially developed for leaky points such as roofs, exterior walls, fine seams, pipe openings, etc. in waterproof construction. It is suitable for narrow and complex spaces that are difficult to reach by paintings and tools and easily solve leakage problem. Silfix spray and seal is designed with anti-corrosion and rust prevention functions. It is convenient to use and construct the bathroom and various complex part at room temperature. Good overall film formation, excellent rubber elasticity and high elongation, can adapt to the cracks and deformation requirements of the base.

DIRECTIONS

- 1) Wear protective gear.
- 2) Ensure that the surface is clean.
- 3) Allow 24 hours to dry.
- 4) Use multiple coats as required.
- 5) Shake well for around 30 seconds to 1 minute.
- 6) Spray 8 – 12 inches with a sweeping
